Subject: Water Chemistry from Gold King Mine

See the attached files with the Gold King water chemistry. The Word version is for Matt to use in the RFP. The Excel version has 3 tabs: GKM chemistry, pond discharge chemistry, and

comparison	of the two	on the same	e (mostly) dat	e. The co	omparison	shows	the %	removed	after
limited pH	adjustment	and additio	n of Brennflo	c floccula	ınt.				

I will update these as additional information is available (sampling is done for each location every other day). Please let me know if you would like additional information.
